

~~REJUVENATING~~

Ruining

ROSEBURN

DELIVERING THE ROSEBURN ACTION PLAN

NOT

We believe the Council's scheme brings you the death of Murrayfield Place. We'll get

- Less parking (from 11 spaces down to 9)
- A viewing platform on an arterial route that only thieves will use (Murrayfield burglars use the riverbank to escape police)
- The loss of a wildlife haven in the heart of the city
- Loss of existing trees and undergrowth
- A "possible" street market that will see no stalls— other city markets are shrinking.

What residents want most of all is improved rubbish storage. A request for underground recycling containers was rejected out of hand by CEC at Murrayfield Community Council (MCC) meetings, though Grassmarket already has this.

Parking will be cut by 2 spaces at least. The 37 shops and offices in Roseburn are already losing 50% of their Roseburn Terrace parking and loading because of the CCWEL, so to reduce the Murrayfield Place parking will further damage the local economy. In future it will be impossible to find any parking within easy walking distance of the shops and customers will just go elsewhere. MCC's objection to the parking reduction will go before the Government this summer.

Suggested survey form responses- what residents really want :

Cobbled setts and antique lighting on the Old Coltbridge

Another planter

Underground waste disposal, like Grassmarket

New paving with Caithness slab, like the Shore

Hanging baskets, throughout Roseburn, Council maintained

Pressure clean all stonework; ongoing street maintenance

No viewing platform

No reduction in parking

No consultation fakery- only EH12 results please

In the last consultation, the Council claimed 74% supported the CCW-EL, but our FOI showed few of those in favour lived in Roseburn. Indeed, data for those with EH12 5** postcodes showed 61% opposed the scheme! We fear the Council will manipulate the results of this “consultation” as well, so please ask CEC to only publish EH12 results. To stay informed, go to our campaign website and add your name to the mailing list. Also at the website you’ll learn about:

- ◆ Traders compensation call for CCWEL losses.
- ◆ Pollution levels in Roseburn Terrace to breach legal safety levels.
